PCI lpt port controller drivers
- Go to device manager
  o Select PCI simple communications controller
  o Right click and select update driver
  o De-select find best driver and locate manually
- Browse CD
  o Multi I/O
  o 220N-2
  o XP folder
  o "Netmos 9815 PCI Multi I/O controller" loads
- 2 new devices will appear under LPT ports
  o load each the same as above

- Netmos 9815 PCI Multi I/O controller should appear where PCI simple communications controller was earlier

- Netmos PCI ECP parallel port LPT(2) and (3) should also appear
